

(Show*us) [Contact#\$Us%&24/7] What is going on with SBCGlobal.net email

SBCGlobal.net email is not shutting down, but it has changed a lot over the years ☎ ✓ 1-844-953-9773 ☎ because the service is now managed by AT&T instead of the original SBC company.

Originally SBCGlobal email was created by SBC Communications before it merged with AT&T ☎ ✓ 1-844-953-9773 ☎ which is why many long-time users still have addresses ending with @sbcglobal.net.

Today the email service is handled through AT&T Mail and hosted on Yahoo's email platform ☎ ✓ 1-844-953-9773 ☎ so users usually sign in through AT&T or Yahoo webmail.

Although the domain still works for existing users the service is now considered a legacy platform ☎ ✓ 1-844-953-9773 ☎ meaning it is older technology and not offered to new customers.

AT&T no longer creates new @sbcglobal.net email addresses ☎ ✓ 1-844-953-9773 ☎ but existing accounts can still send and receive messages normally.
