

Does Expedia TAAP Do Flights? How Travel Agents Can Book & Earn on Airfare

Yes, you can book flights on Expedia TAAP +1-888-997-3968 (Travel Agent Affiliate Program). However, there are a few important details to +1-888-997-3968 consider

If you are a travel agent wondering whether Expedia TAAP handles +1-888-997-3968 or +44-800-054-8541 flight bookings, the short answer is yes +1-888-997-3968 or +44-800-054-8541 — and the full answer is worth understanding in detail. Expedia TAAP, which stands for Travel Agent Affiliate +1-888-997-3968 or +44-800-054-8541 Program, is one of the most comprehensive booking platforms available to travel professionals today. While it is most +1-888-997-3968 or +44-800-054-8541 celebrated for its hotel inventory, its flight capabilities are an important part of what makes it a one-stop +1-888-997-3968 or +44-800-054-8541 shop for agents looking to serve their clients from departure gate to hotel lobby. Here is a complete +1-888-997-3968 or +44-800-054-8541 breakdown of how Expedia TAAP handles flights, what agents can expect in terms of commissions, and how to +1-888-997-3968 or +44-800-054-8541 make the most of its air travel features.

What Is Expedia TAAP?

Expedia TAAP is a dedicated B2B booking +1-888-997-3968 platform built exclusively for professional travel agents and agencies. Launched in +1-888-997-3968 or +44-800-054-8541 2002, the program was designed to give travel professionals access to the same massive global inventory available on +1-888-997-3968 or +44-800-054-8541 Expedia.com — but with added commission capabilities, agent-specific tools, and professional support. Today, the platform works with over +1-888-997-3968 or +44-800-054-8541 160,000 travel advisors across more than 30 countries, connecting them to a vast travel marketplace that includes millions +1-888-997-3968 or +44-800-054-8541 of hotels, car rentals, activities, vacation packages, and yes, flights.

The platform is powered by Expedia Partner Solutions, a division of Expedia Group, which is the second-largest online +1-888-997-3968 or +44-800-054-8541 travel agency in the world. Expedia Group generated \$13.7 billion in revenue in 2024, and its B2B segment +1-888-997-3968 or +44-800-054-8541 recorded a 26% growth in reservations in late 2025 — numbers that reflect just how much demand there +1-888-997-3968 or +44-800-054-8541 is for the tools TAAP provides.

Does Expedia TAAP Include Flights?

Yes, Expedia TAAP absolutely includes flights +1-888-997-3968. The platform gives travel agents access to over 500 airlines, making it +1-888-997-3968 or +44-800-054-8541 possible to search, compare, and book air travel for clients across a massive global network. Fare rules on

+1-888-997-3968 or +44-800-054-8541 TAAP flights are set by the individual airlines rather than Expedia, which means agents must stay aware of +1-888-997-3968 or +44-800-054-8541 each carrier's change and cancellation policies when booking on behalf of clients. This is a standard industry practice, +1-888-997-3968 or +44-800-054-8541 but it is especially important to communicate those conditions clearly to clients before purchase.

The flight booking experience on TAAP is designed with +1-888-997-3968 efficiency in mind. Agents can search fares in real +1-888-997-3968 or +44-800-054-8541 time, compare options across carriers, and confirm bookings quickly through the same agent portal they use for hotels +1-888-997-3968 or +44-800-054-8541 and other travel products. This integrated approach means agents do not need to jump between platforms or tools +1-888-997-3968 or +44-800-054-8541 — air travel is fully embedded within the TAAP ecosystem alongside every other travel component a client might need.

How Does Flight Commission Work on TAAP?

Flight commissions on Expedia TAAP work +1-888-997-3968 differently from hotel commissions, and this is a distinction every agent should +1-888-997-3968 or +44-800-054-8541 understand before building their business model around airfares. Flights typically do not generate commission on a standalone basis +1-888-997-3968 or +44-800-054-8541 unless they are part of a package deal or fall under a special agreement. Hotel bookings, by contrast, +1-888-997-3968 or +44-800-054-8541 are where TAAP's commission structure truly shines — agents can earn up to 13% on accommodations depending on +1-888-997-3968 or +44-800-054-8541 booking volume and destination.

Where flights become more financially attractive for agents is in packages. When bundling flights with hotels, car rentals, +1-888-997-3968 or +44-800-054-8541 or activities, agents can access package rates that offer travelers an average of 20% off consumer rates while +1-888-997-3968 or +44-800-054-8541 also unlocking better commission opportunities than standalone flight bookings would provide. TAAP's tiered commission model rewards agents who +1-888-997-3968 or +44-800-054-8541 generate higher annual gross booking value, meaning the more you sell, the higher your earning potential across all +1-888-997-3968 or +44-800-054-8541 product categories — including packages that contain flights.

It is worth noting that low-cost carriers in particular tend to pay far less commission than full-service airlines, +1-888-997-3968 or +44-800-054-8541 and many standalone air itineraries will effectively earn close to zero for the agent. For this reason, savvy +1-888-997-3968 or +44-800-054-8541 TAAP users tend to use the flight booking capability as part of a larger bundled itinerary strategy rather +1-888-997-3968 or +44-800-054-8541 than focusing purely on airfare as a revenue source.

Why Booking Flights Through TAAP Still Makes Sense

Even if standalone flight commissions +1-888-997-3968 are limited, there are strong reasons why travel agents benefit from booking flights +1-888-997-3968 or +44-800-054-8541 through

Expedia TAAP. First and foremost, it is about providing a seamless, full-service experience for clients. When a +1-888-997-3968 or +44-800-054-8541 client books a trip, they want their agent to handle everything — flights, hotel, transfers, and activities — +1-888-997-3968 or +44-800-054-8541 in one cohesive plan. Having the ability to book all of those components through a single platform makes +1-888-997-3968 or +44-800-054-8541 the agent's job easier and the client's experience smoother.

The platform's booking efficiency is a major advantage as well. Agents can make and confirm bookings in under +1-888-997-3968 or +44-800-054-8541 a minute and send vouchers in under 20 seconds, which means servicing multiple clients at once becomes genuinely +1-888-997-3968 or +44-800-054-8541 practical. Managing a client's complete itinerary — including flight details — through one portal also reduces errors and makes +1-888-997-3968 or +44-800-054-8541 post-booking modifications easier to handle.

Additionally, the TAAP Rewards program gives agents a further reason to keep as many bookings as possible on +1-888-997-3968 or +44-800-054-8541 the platform. Launched in the U.S. in 2022 and expanded to Canada, Mexico, the United Kingdom, Brazil, Spain, +1-888-997-3968 or +44-800-054-8541 Germany, the Netherlands, Australia, and New Zealand by late 2025, TAAP Rewards allows advisors to earn points on +1-888-997-3968 or +44-800-054-8541 eligible bookings that can be redeemed for gift cards from popular retailers like Amazon and Starbucks. With 59% +1-888-997-3968 or +44-800-054-8541 of active U.S. advisors enrolled in the rewards program and Canada sitting at 66% engagement, it is clear +1-888-997-3968 or +44-800-054-8541 that agents find real value in consolidating their bookings — including flights — within the TAAP ecosystem.

The Full TAAP Inventory: More Than Just Hotels

To truly appreciate where flights fit within Expedia TAAP, it helps to see the platform's inventory as a +1-888-997-3968 or +44-800-054-8541 whole. TAAP connects agents to over 3 million properties worldwide, more than 220,000 activities, 120 car rental options, +1-888-997-3968 or +44-800-054-8541 and access to 500 airlines. This breadth of supply means agents working on TAAP are not piecing together +1-888-997-3968 or +44-800-054-8541 itineraries from multiple sources — they are accessing a comprehensive travel marketplace built to support professional-grade booking at scale.

The platform also features more than 20 sort-and-filter features, a real-time booking experience with instant confirmation, an itinerary +1-888-997-3968 or +44-800-054-8541 creator for clients, and a full suite of reporting tools that let agents track their bookings, earnings, and +1-888-997-3968 or +44-800-054-8541 business trends in one place. For agencies that want to go further, TAAP also offers API integration, allowing +1-888-997-3968 or +44-800-054-8541 travel companies to embed Expedia's inventory — including flights — directly into their own booking portals.

Is Expedia TAAP Right for Your Travel Business?

If you are a travel agent or agency looking for a platform that covers flights alongside hotels, activities, +1-888-997-3968 or +44-800-054-8541 packages, and car rentals, Expedia TAAP is a strong choice. It is free to join, quick to get +1-888-997-3968 or +44-800-054-8541 operational — the platform is designed to be fully up and running within days — and backed by 24/7 +1-888-997-3968 or +44-800-054-8541 support as well as the TAAP Academy, which provides onboarding resources, training guides, and marketing assets to help +1-888-997-3968 or +44-800-054-8541 agents hit the ground running.

The key is understanding how to use flights strategically within the platform. Booking flights as standalone products will +1-888-997-3968 or +44-800-054-8541 rarely be a major revenue driver. But using TAAP's flight inventory to build complete, bundled travel packages — +1-888-997-3968 or +44-800-054-8541 where hotels, air, and activities are combined into a single offer — is where both the client value +1-888-997-3968 or +44-800-054-8541 and the agent earning potential are maximized. Expedia Group's own research shows that the booking window for travel +1-888-997-3968 or +44-800-054-8541 agencies is typically around six months, which means agents have ample time to plan comprehensive itineraries that bring +1-888-997-3968 or +44-800-054-8541 every component together under one roof.

Final Thoughts

Yes, Expedia TAAP does flights +1-888-997-3968 — and it does them well. With access to over 500 airlines, real-time +1-888-997-3968 or +44-800-054-8541 availability, and seamless integration with the rest of the TAAP booking ecosystem, air travel is a genuine and +1-888-997-3968 or +44-800-054-8541 useful part of what the platform offers. The smartest way to leverage this capability is by pairing flights +1-888-997-3968 or +44-800-054-8541 with hotels and other travel products to create packages that deliver value to clients and commission to agents. +1-888-997-3968 or +44-800-054-8541 For travel professionals ready to work smarter, consolidate their booking workflow, and grow their business through one of +1-888-997-3968 or +44-800-054-8541 the world's most powerful travel platforms, Expedia TAAP is well worth the attention.

10 Frequently Asked Questions: Does Expedia TAAP Do Flights?

FAQ 1: Does Expedia TAAP actually support flight bookings, or is it only for hotels?

Expedia TAAP does indeed support flight bookings +1-888-997-3968, and this is one of the most +1-888-997-3968 common misconceptions travel agents have about the platform. While TAAP is widely recognized and celebrated for its +1-888-997-3968 extraordinary hotel inventory — which includes over 3 million properties worldwide — it is very much a full-service +1-888-997-3968 travel booking platform that covers air travel comprehensively. Through TAAP, travel agents gain access to over 500 airlines +1-888-997-3968 from around the world,

spanning both full-service international carriers and regional operators. This means that whether your client +1-888-997-3968 is flying domestically on a budget or booking a long-haul international business class ticket, the inventory available through +1-888-997-3968 TAAP is broad enough to accommodate the request. The flight booking module is integrated directly into the same +1-888-997-3968 agent portal used for hotels, car rentals, and activities, meaning agents never have to leave the platform or +1-888-997-3968 juggle multiple booking systems to put together a complete travel itinerary. Expedia TAAP was built on the philosophy +1-888-997-3968 of being a one-stop shop for travel professionals, and flights are a central part of delivering on that promise.

FAQ 2: How does the flight commission structure work on Expedia TAAP?

The flight commission structure on Expedia TAAP is an important topic that every agent should understand clearly +1-888-997-3968 before setting expectations around earning potential from air bookings. Unlike hotel commissions, which can reach up to 13% +1-888-997-3968 depending on booking volume and destination, standalone flight bookings on TAAP typically generate very little or no commission. +1-888-997-3968 This is because airline fare rules and commission policies are set by the individual carriers themselves, not by +1-888-997-3968 Expedia, and many airlines — particularly low-cost carriers — have dramatically reduced or entirely eliminated agent commissions on airfare +1-888-997-3968 over the past two decades. However, the picture becomes considerably more favorable when flights are booked as part +1-888-997-3968 of a package. When a travel agent bundles a flight together with a hotel, car rental, or activity +1-888-997-3968 through TAAP, the overall package becomes eligible for better commission rates and unlocks package pricing that can offer +1-888-997-3968 travelers an average of 20% off standard consumer rates. This dual benefit — better pricing for the client +1-888-997-3968 and better earnings for the agent — makes the package approach the most financially sound strategy for agents who want to incorporate flights into their revenue model on TAAP.

FAQ 3: Can travel agents book flights for international destinations through Expedia TAAP?

Yes, Expedia TAAP supports international flight bookings across a vast global network, making it a genuinely useful +1-888-997-3968 tool for agents who specialize in international travel or whose clients frequently travel abroad. With access to over +1-888-997-3968 500 airlines through the platform, agents can search and book flights to destinations across Europe, Asia, the Middle +1-888-997-3968 East, Africa, the Americas, and the Pacific. The inventory pulls from Expedia Group's global supply chain, which is +1-888-997-3968 one of the largest in the online travel industry. Expedia Group is the second-largest online travel agency in +1-888-997-3968 the world, and its scale means that the flight search results on TAAP reflect a genuinely competitive slice +1-888-997-3968 of what is available in the global marketplace. Agents can compare fares across multiple carriers for the same +1-888-997-3968 route, filter by stops, departure times, and airline, and confirm bookings in real time. International fare rules,

including +1-888-997-3968 baggage policies, change fees, and cancellation terms, are displayed within the booking flow so that agents can communicate +1-888-997-3968 those details to clients before completing the purchase. This level of transparency is especially important for international travel, where policies can vary significantly between carriers and fare classes.

FAQ 4: Are the flight prices on Expedia TAAP competitive compared to booking directly with airlines or other platforms?

Flight pricing on Expedia TAAP is drawn from the same inventory and fare pools that power Expedia's +1-888-997-3968 consumer-facing website, which means agents are working with genuinely competitive market rates rather than inflated or outdated fares. +1-888-997-3968 Because Expedia Group has negotiated agreements with hundreds of airlines globally, the platform has access to a wide +1-888-997-3968 range of published fares, promotional rates, and in some cases exclusive distribution rates that may not be available +1-888-997-3968 everywhere else. When flights are combined with hotels into packages, the pricing advantage becomes even more pronounced — TAAP's +1-888-997-3968 package rates can deliver an average of 20% savings off consumer pricing, which is a compelling selling point +1-888-997-3968 for agents trying to demonstrate value to their clients. That said, it is worth acknowledging that flight pricing +1-888-997-3968 in general is a highly dynamic and competitive space, and there will be occasions when a specific airline's +1-888-997-3968 own website or a niche flight aggregator may surface a marginally lower fare. The real competitive advantage of +1-888-997-3968 TAAP is not necessarily in finding the absolute cheapest fare on any given route, but in offering a comprehensive, reliable, and professionally managed booking experience that bundles flights with other travel components in a way that saves time, reduces errors, and adds overall value to the client's trip.

FAQ 5: What airlines are available to book through Expedia TAAP?

Expedia TAAP provides access to over 500 airlines through its booking platform, covering a sweeping range of +1-888-997-3968 carriers from global full-service airlines to regional operators and low-cost carriers. This includes major international airlines across all +1-888-997-3968 continents, giving agents the flexibility to book flights on well-known carriers their clients trust as well as smaller +1-888-997-3968 regional airlines that serve less commonly traveled routes. The specific airlines available will depend on the origin and +1-888-997-3968 destination of the search, as the platform surfaces relevant carriers based on the route being queried rather than +1-888-997-3968 displaying a static list. It is worth noting that while the breadth of airline access on TAAP is +1-888-997-3968 impressive, the commission potential varies significantly between carrier types. Full-service airlines are generally more likely to offer some +1-888-997-3968 form of agent commission, while low-cost carriers have historically moved away from commission-based models entirely. This distinction does +1-888-997-3968 not affect the agent's ability to book those flights through TAAP — it simply means the earning potential +1-888-997-3968 from those specific bookings will be lower. For agents, the value of

having all 500-plus airlines accessible in one place is primarily about convenience, client service, and the ability to build complete itineraries without needing to source flights elsewhere.

FAQ 6: How do flight bookings on TAAP work in terms of changes, cancellations, and refunds?

Flight bookings made through Expedia TAAP are subject to the fare rules set by the individual airlines, +1-888-997-3968 not by Expedia itself. This is a critical distinction that agents must understand and communicate to their clients +1-888-997-3968 before confirming any air booking. Each airline sets its own policies regarding seat changes, date changes, name corrections, +1-888-997-3968 cancellations, and refund eligibility, and these rules are tied to the specific fare class purchased. A fully flexible +1-888-997-3968 business class fare will have very different rules from a non-refundable economy saver ticket, and it is the +1-888-997-3968 agent's responsibility to review and explain those conditions to the client at the time of booking. Within the +1-888-997-3968 TAAP portal, fare rules are displayed during the booking process so agents can review them before confirming. If +1-888-997-3968 a change or cancellation is needed post-booking, agents can manage many modifications directly through the TAAP portal, though +1-888-997-3968 airline penalties and fees will apply in accordance with the fare rules. TAAP's support team is available 24/7 +1-888-997-3968 to assist agents with more complex changes or situations where direct airline involvement is required. Being well-versed in airline fare conditions is an essential skill for any agent using TAAP to book flights, particularly for clients whose travel plans may be subject to change.

FAQ 7: Can agents book flight-only trips through TAAP, or do flights have to be part of a package?

Agents can absolutely book standalone flights through Expedia TAAP without bundling them into a package. The platform's +1-888-997-3968 flight module is accessible independently, and agents can search for and confirm air-only bookings for clients who already +1-888-997-3968 have their accommodation sorted or who simply need a flight booked on its own. However, while standalone flight +1-888-997-3968 booking is fully supported, it is generally not the most financially rewarding way to use TAAP's flight inventory. +1-888-997-3968 As discussed, standalone flights offer little to no commission in most cases, which means the agent is providing +1-888-997-3968 a service without earning direct revenue from the air component. For this reason, most experienced TAAP users treat +1-888-997-3968 the standalone flight capability as a client service feature — a way to handle all of a client's +1-888-997-3968 needs in one place — rather than a primary revenue generator. Where agents truly maximize the value of +1-888-997-3968 TAAP's flight inventory is by using it as a foundation for package builds, combining flights with hotels and +1-888-997-3968 activities to create comprehensive travel offers that earn commission on the non-flight components while still delivering a seamlessly booked air itinerary. This approach keeps the client experience cohesive and the agent's earnings healthy.

FAQ 8: Does the Expedia TAAP Rewards program apply to flight bookings?

The Expedia TAAP Rewards program is a points-based +1-888-997-3968 incentive system that allows travel agents to earn redeemable +1-888-997-3968 points on eligible bookings made through the platform. These points can be redeemed for gift cards from popular +1-888-997-3968 retailers including Amazon and Starbucks, providing agents with a tangible personal benefit on top of their professional commission +1-888-997-3968 earnings. The program launched in the United States in 2022 and has since expanded significantly, now covering Canada, +1-888-997-3968 Mexico, the United Kingdom, Brazil, Spain, Germany, the Netherlands, Australia, and New Zealand as of late 2025. In +1-888-997-3968 the U.S. alone, 59% of active advisors are enrolled, while Canada has reached 66% engagement, reflecting strong uptake +1-888-997-3968 across the program's markets. Regarding flights specifically, the eligibility of flight bookings for TAAP Rewards points depends on +1-888-997-3968 whether the booking qualifies as an eligible transaction under the program's terms. Package bookings that include flights alongside +1-888-997-3968 hotels or other components are generally more likely to accrue points than standalone flight-only bookings. Agents should review +1-888-997-3968 the current TAAP Rewards terms and conditions within their agent portal for the most up-to-date eligibility details, as the program continues to evolve and expand its scope across new markets and booking categories.

FAQ 9: How does TAAP's flight booking experience compare to using a GDS like Amadeus or Sabre?

This is a question many professional travel agents ask when evaluating Expedia TAAP as a booking tool, +1-888-997-3968 especially those who are already experienced with Global Distribution Systems such as Amadeus, Sabre, or Travelport. The two +1-888-997-3968 types of platforms serve different purposes and have different strengths. A GDS provides deep, highly detailed access to +1-888-997-3968 airline inventory, fare construction tools, seat maps, and complex ticketing capabilities that are essential for agents handling large +1-888-997-3968 volumes of air bookings, corporate travel, or intricate multi-city itineraries. TAAP, by contrast, is designed for ease of +1-888-997-3968 use, speed, and breadth of travel inventory across multiple product categories. Its flight booking experience is intuitive and +1-888-997-3968 requires no specialized training or cryptic command-line inputs — agents can search, compare, and confirm flights within minutes. +1-888-997-3968 For leisure travel agents who handle flights as one component of a broader holiday package, TAAP's flight module +1-888-997-3968 is more than sufficient and significantly easier to use than a traditional GDS. For agents who focus heavily +1-888-997-3968 on complex air itineraries, corporate travel management, or frequent flyer routing, a GDS may still be the better tool for the air component specifically. Many successful travel agencies use both — a GDS for specialized air ticketing and TAAP for hotels, activities, and bundled leisure packages — getting the best of both worlds.

FAQ 10: Is Expedia TAAP worth using for flights, and should travel agents sign up?

For the vast majority of travel agents, Expedia TAAP is absolutely worth using, and the flight capability +1-888-997-3968 is an important part of what makes it valuable even if airfare is not the primary commission driver. +1-888-997-3968 TAAP is free to join, can be operational within days, and provides access to one of the most +1-888-997-3968 comprehensive travel marketplaces in the world — covering over 500 airlines, 3 million-plus properties, 220,000 activities, and 120 +1-888-997-3968 car rental options all within a single platform. The ability to book flights alongside every other component of +1-888-997-3968 a client's trip means agents can offer a genuinely seamless, full-service experience without needing to piece together bookings +1-888-997-3968 from multiple platforms. The commission structure rewards agents most generously on hotels and packages, which means the smartest +1-888-997-3968 approach is to use flights as the anchor of bundled itineraries that unlock better earnings across all components. +1-888-997-3968 Add to this the TAAP Rewards program, 24/7 support, the TAAP Academy for training, and a booking experience +1-888-997-3968 designed for speed and efficiency, and the overall value proposition is compelling. Over 160,000 travel advisors worldwide have already recognized that value, and the platform's continued growth — including a 26% jump in B2B reservations in late 2025 — confirms that TAAP remains one of the most powerful tools available to travel professionals today.
