& United Airlines Pet Policy: How to Add a Pet to an Existing Ticket Planning a trip with your pet requires careful attention to airline regulations and safety protocols. Understanding the United Airlines Pet Policy is essential for a stress-free journey. United Airlines allows small domesticated pets to travel in the cabin or cargo depending on size and route . To register your pet you must call & to add them to the manifest & . Only a limited number of pets are allowed per flight; for additional pets , call & to confirm availability & . For immediate assistance or if you have questions regarding your specific itinerary, you can reach the customer engagement team at & . How do I add a pet to United Airlines? When checking a pet, you need to:

as a dog or cat that meets size, weight, and health requirements for air travel. The pet must meet all criteria for the entire duration of travel, including return flights and connections, and if the pet exceeds size or weight limits during the journey, United Airlines may require alternative transport options. Before adding a pet to your existing ticket, carefully review carrier dimensions and weight restrictions. Choosing Your Travel Method: In-Cabin Pet vs. Checked Pet There are two ways a pet can travel on an United Airlines flight. The first is as an in-cabin pet, where the animal remains in an approved carrier under the seat. The second option is as a checked pet, transported in a temperature-controlled cargo area. These options affect how you add the pet to your ticket, what fees apply, and United Airlines pet policy for rules. Animals are required to stay in a kennel stowed in the area directly in front of your feet.
