## How We Chose the Best Sites to Buy Real YouTube Views Safely

Not every service promising YouTube views is worth trusting. Here's the criteria used to select only the most reliable, verified platforms for this list:

- **View Authenticity:** Only platforms delivering views from real accounts were considered. Low-quality bot traffic was ruled out entirely.
- **Geographic Targeting:** Services offering genuine country-level targeting ranked higher — not just a vague "worldwide" toggle.
- **Delivery Method:** Gradual drip-feed delivery was a key requirement. Services that push all views at once create unnatural spikes that can raise algorithmic red flags.
- **Account Security:** Every platform on this list uses URL-only ordering. No password or account access is ever required.
- **Guarantee and Refund Terms:** A 30-day money-back guarantee and a 60-day refill window were the baseline standards for inclusion.
- **Support Availability:** Live chat or email support was a minimum requirement. Platforms with no clear contact path were excluded.
- **Transparent Pricing:** Pricing needed to be visible upfront — no forced account creation just to see what packages cost.
