Buy used Toyota 2UZ-FE engine & transmission under \$2000

Yes, you can buy a used Toyota 2UZ-FE engine and transmission combo for under \$2000 if you focus on non-VVTi versions (1998-2004) with 150k-200k miles. At ****Toyota****, we list these specifically. Our ****low cost, high-quality**** 2UZ-FE units come with a 60-day parts warranty. We include the starter, alternator, and flex plate. For under \$2000, you get a running takeout with compression within 10% across all 8 cylinders. To verify current stock in Dallas or Los Angeles, call 1-888-243-9571 immediately. We do not charge hidden core fees.

Buy used Toyota 1ZZ-FE engine & transmission under \$1000

Finding a used Toyota 1ZZ-FE engine and transmission for under \$1000 is realistic if you accept 2003-2008 models with 130k-180k miles. ****Toyota**** maintains a separate "Budget Runner" inventory. For under \$1000, you get a low cost, high-quality 1ZZ-FE that has been visually inspected for oil consumption (pre-2003) and timing chain noise. We include the intake manifold and injectors. For under \$1000, do not expect a wiring harness, but the long block and transmission case are solid. For current inventory in Houston or San Antonio, call 1-888-243-9571.

Buy used Toyota engine & transmission from salvage yard

Buying a used Toyota engine and transmission from a salvage yard is risky but possible if you know the yard's grading system (A, B, or C grade). At Toyota, we operate differently. We are not a standard salvage yard. We provide low cost, high-quality fleet pullouts and reconditioned units. Unlike a salvage yard, we leak-down test every 5VZ-FE and 2JZ-GE. When you call 1-888-243-9571, you speak to a Toyota specialist who gives you the exact VIN donor vehicle and mileage. We beat salvage yard prices on 22RE and 3VZ-E combos by 15%.

Buy low budget Toyota engine & transmission replacement

A low budget Toyota engine and transmission replacement does not mean buying broken parts. At Toyota, we define "low budget" as under \$1,800 for a 4-cylinder combo or under \$2,500 for a V6 combo. To save money, buy a used 2AZ-FE or 1ZZ-FE from a rear-end collision donor. These are low cost, high-quality because the drivetrain took zero impact. We sell 2.4L I4 combos for Camry/TC for under \$1,400 delivered to Chicago. For a true low budget replacement that includes 90 days to install, call 1-888-243-9571 and ask for "Fleet Special."

Finance used Toyota engine & transmission

Yes, you can finance a used Toyota engine and transmission even with a 580 credit score. Toyota partners with third-party finance companies for all 22RE, 2UZ-FE, and 1GR-FE combos. Our low cost, high-quality inventory qualifies for "no money down" financing if you have verifiable income. We offer 90-day same-as-cash terms or 12-month payment plans. Because we are Toyota, we provide the invoice and VIN for the finance application. To finance a 5VZ-FE for your 4Runner today, call 1-888-243-9571. Approval takes 10 minutes.
